DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/13/2006 has been entered.

Claim Rejections - 35 USC § 112

Claims 57 and 62 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims are indefinite because they include recitations of four or more amino acids in a sequence, without a corresponding SEQ ID number. These peptides were originally disclosed in the specification by defining combinations of R and R", so the peptides themselves are not new matter. However, since the peptides are now recited in the form of a string of amino acids at least four residues long, they must now be accompanied by a SEQ ID number. Furthermore the Sequence Listing must be revised to include these SEQ IDs, if they are not already included. See 37 CFR 1.821 through 1.825, and MPEP 2421 *et seq.* In addition, claim 62 appears to be missing the final word "thereof."

Allowable Subject Matter

Claims 48-56, 58-61, 63-65 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The rejections of record are withdrawn in view of the replacement claims and applicant's arguments.
